Executive Summary

EVme Plus’s current aspiration to be part of their target user's lifestyle using our approach and modifications to reach the goals.

Goal

To become part of every Thai Gen Y’s lifestyle, acquiring users in the short-run and maintaining users in the long-run.

Key Question

“ *What strategics should EVme take to make more appealing to increasing EV adoption rates and achieve a target of 200,000 active users by 2025?* ”

Recommendations

POINTS

Enhancing Gen Y lifestyle statisfaction for them to engage with EVme Plus by offering special discounts

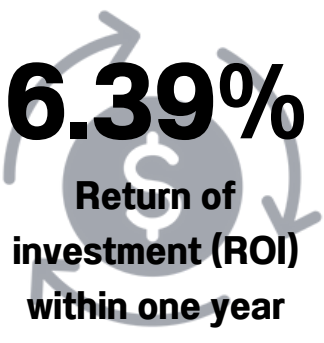

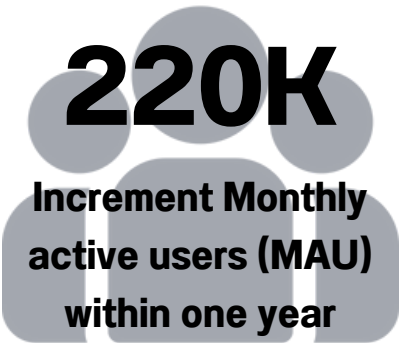

Adjust informative feature to application to satisfy users

Raise awareness of EVme Plus through midtier and macro influencers

Impact

Situation Analysis

Recommendation

Implementation

Our current situation and our aim to capture Gen Y or “Work Person” to become part of their lifestyle

“ **Vision**

To be positioned as a “**top-of-mind**” brand amongst Thai people in the EV ecosystem

“ **Mission**

To increasing EV adoption rates and build awareness resulting in **increased application downloads** and an **active user base**.

Value Proposition

OEM Partners

Target Customer Analysis

Gen Y

Age 26-41

Salary 50,000 - 100,000+

The Proportion

Reference: <https://www.boj.go.th/index.php?page=demographic>

Characteristics

- Social Media Consumers
- Brand Loyalty
- Tech-Savvy Individuals
- Interest in fast promotion
- Seek to try new things

EVME Plus’s Target Customer Analysis

EvME Plus’s current offering is not appealing enough to acquire a targeted amount of 50,000+ salary users.

EvME Plus aims to increase their targeted customers so they need to gain **in-depth understandings** of their targeted customers’s lifestyles in order to build awareness and increase EvMe Plus’s subscription members.

Who are Gen Ys?

Age 26-41	Social Media Facebook, Youtube

Our Missions

Gen Y Insights

 42% Consume online reviews to make a purchase decision.	 38% Personalized loyalty and prefer a tiered reward system .	 42% Choose to encourage eco-friendly companies .	 77% Seek to try exotics and update trends
---	--	--	--

To capture Gen Y customers with these interests, EvME Plus would have to consider engaging with online marketing, a reward system and various car rental options that are updated among global trends.

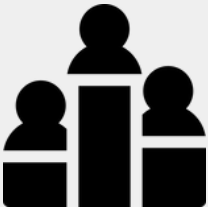

KEY FEATURE OFFERED	Various car rent selection	Toyota’s Service Car Center support	Cheap price for car rent
BARRIERS OF ENTRY	Very Low Easy to disrupt as EVme Plus offers only BEV car rent	HIGH Owens by Toyota. It also offers truck rental, as well as second hand rental. They only use new car for rent.	MODERATE Operating more than 1,000 ev charger stations and interesting car rent features
WEAKNESS	Offers only BEV Car	Offers only Toyota cars and long-term rent	Targets only in Bangkok and short-term rent

EVme Plus focus on

Penetrating Barriers of entry

Adopting key features of successful competitors

Eradicating weaknesses to generate higher percentage share

Synopsis of the present situation, customer's analysis, key issues, and our proposed solutions

What EvME Plus does?	Our Analysis	Key Issues	How we fix?
- EvME Plus expanded its headquarters to four key provinces, including Chiang Mai, Know Kaen, Phuket and Bangkok. - EvME Plus informs locations of charging EV stations with no extra charges. - EvME Plus offers membership in the “EVme Club,” which consists of the privileges of roadside assistance, discounts, events and maintenance services. - Utilizing over 250 posts and videos, as Facebook its primary marketing platform.	- According to the Krungsri survey, a significant number of people lack BEV car information. - Some customers on EvME Plus’s Apple Store are reporting to develop more details in the EV Charging Station. - A significant number of workers are concerned with healthy lifestyles, such as workouts. - There are 33% condominiums in Bangkok, and only 4% of them have 1-2 plug-in EV chargers.	- The main obstacles to buying BEV cars for Thai people are unreachability and insufficient EV car knowledge. - EvME Plus lacks information about charging efficiency. - Installing a charging station takes a high cost for in-building old buildings.	EvME Plus would have to focus marketing on Facebook and Youtube by involving EV car information in today's life with macro influencers. Adjusting EV charging station performance by adding charging efficiency information and distributing EV chargers. POINTS EvME Plus adds the “EVme points” feature to be a part of workers’ lifestyles and gives incentives to rent our cars to have discounts on our partners.

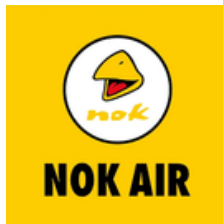

Customer Acquisition & Customer Retention

THROUGH MODIFICATION

Business Strategy: EVme Point

EVme Point will encourage more customers as we offer discounts on partner companies by using our platform.

Why?	Our Target			Impacts
- Cafes are mostly involved with workers at the beginning of the day before going to work and fitness involves a healthy lifestyle. - Statistically, Gen Y has domestic trips or trips abroad one to two times a year. - With people’s concerns about the Ev charging fee, EvMe should offer a free trial for charging the EvME Club to attract more memberships.	 69% travel out of town at least 2-3 times a year	 1 Time Gen Y orders the beverage before work	 14% often go to fitness center	 Special offers to new EVme Plus users  A special promotion period will increase the incentive to register for EVme Plus.  Connect target users and business partners  Provide a marketing campaign for EVme Plus partners  Increased rate of BEV car awareness

Join our community and experience the best offers we could have for you!

Benefits Chain

Situation Analysis

Recommendation

Implementation

Business Strategy: UX/UI Ev Charging Station Adjustment & EVme Charge Station

In addition modifications for EVme Plus Application in order to reach more customers attention and satisfactions.

Why?

- With EVme charge station installation at grocery stores, we projected that EVme could cooperate with Aion to open more changer stations.

Our Target

50%

Generation Y individuals frequently visit the grocery store before heading home-not every day but regularly.

Location

BigC and Tesco Lotus have a market share of 86% of grocery stores.

How we fix?

EVme Plus offers a **free charging fee** to new users for a period of **three months**.

Risk and Mitigation

Risk

- High cost of installation
- Space to install ev charger

Mitigation

- Install the number of chargers in efficient numbers and performance.
- Manage the given space professionally

- With EVme charge station installation at a shopping mall, we projected EVme could retain and attract more users to the application.

17%

rated one-star for the EVme Plus application

One of them is misinformation about EV chargers.
