Target analysis

Electric vehicles

Willingness to pay

Low High

(Avg: THB 3.2m /year)

Size Range

- SME(1%) : 396K
- Medium (4%): 1.9m
- Large (95%): : 3.3m

Pain Points

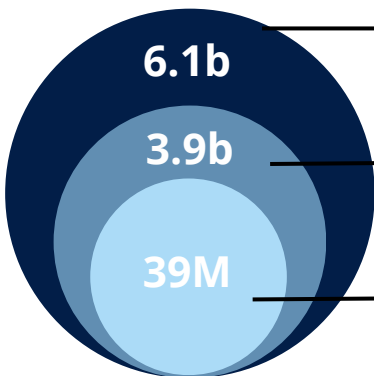

Low Customer experience: Limited Reach and Visibility due to taking time and effort

Lack of knowledge in search engine optimization (SEO) and CMS

Market analysis

TAM : THB 6.1 billion

Market size of electric vehicles (statista, unit THB)

SAM: THB 3.9 billion

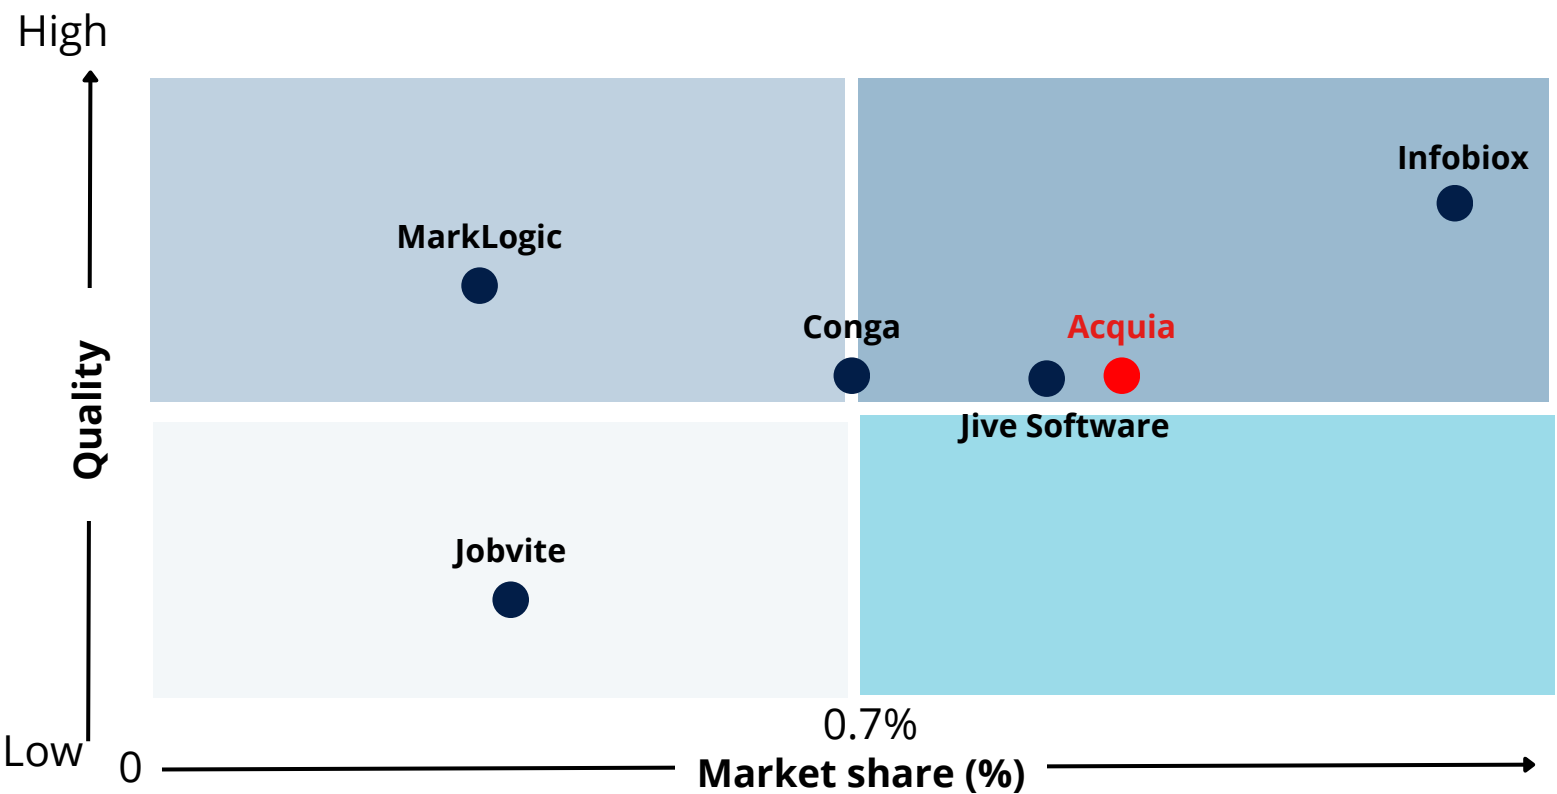

TAM X Probability target interested using in CMS (64.9%), zippia

SOM : THB 39 million

SAM X market share's Acquia (1%), (Zippia)

Competitors' analysis

Acquia performs as high-medium market share(1%) and medium quality

Source : Zippia, Revenue of \$201.1 million

Risk and Mitigation

Risk

- Due to Entering a new market, Lack of EV vehicle industry
- High competition from the EV-vehicles trend

Mitigation

- Doing Market research and analysis in EV vehicle industry
- highlight the benefits they bring to EV vehicle manufacturers and customer

Synergies

Unique Selling Points of Duck Creek

Configurability
and Flexibility

Specialize in property and
casualty insurance industry

Benefits for MFEC

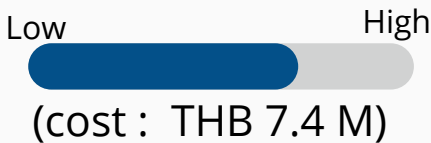

- Increase MFEC's R&D of digital insurance
- New s-curve market for MFEC

Target analysis

Insurance Carrier
(in P&C industry)

Willingness to pay

Size Range

- SME(15%) : 350K
- Medium (35%): 3.4 M
- Large (50%): : 10 M

Pain Points

Legacy system and technology
are expensive to maintain

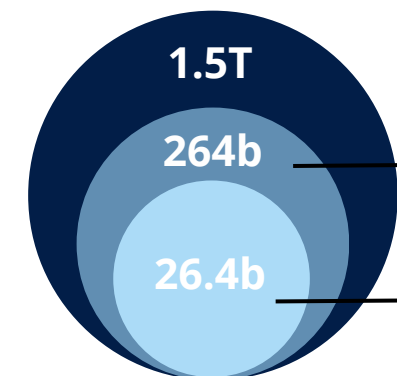

Inadequate operational
efficiency and time

Lack of knowledge in new auto
insurance solution technology

Market analysis

TAM : THB 1.5 trillion

Market size of insurance industry TH (Global Data, unit THB)

SAM: THB 264 billion

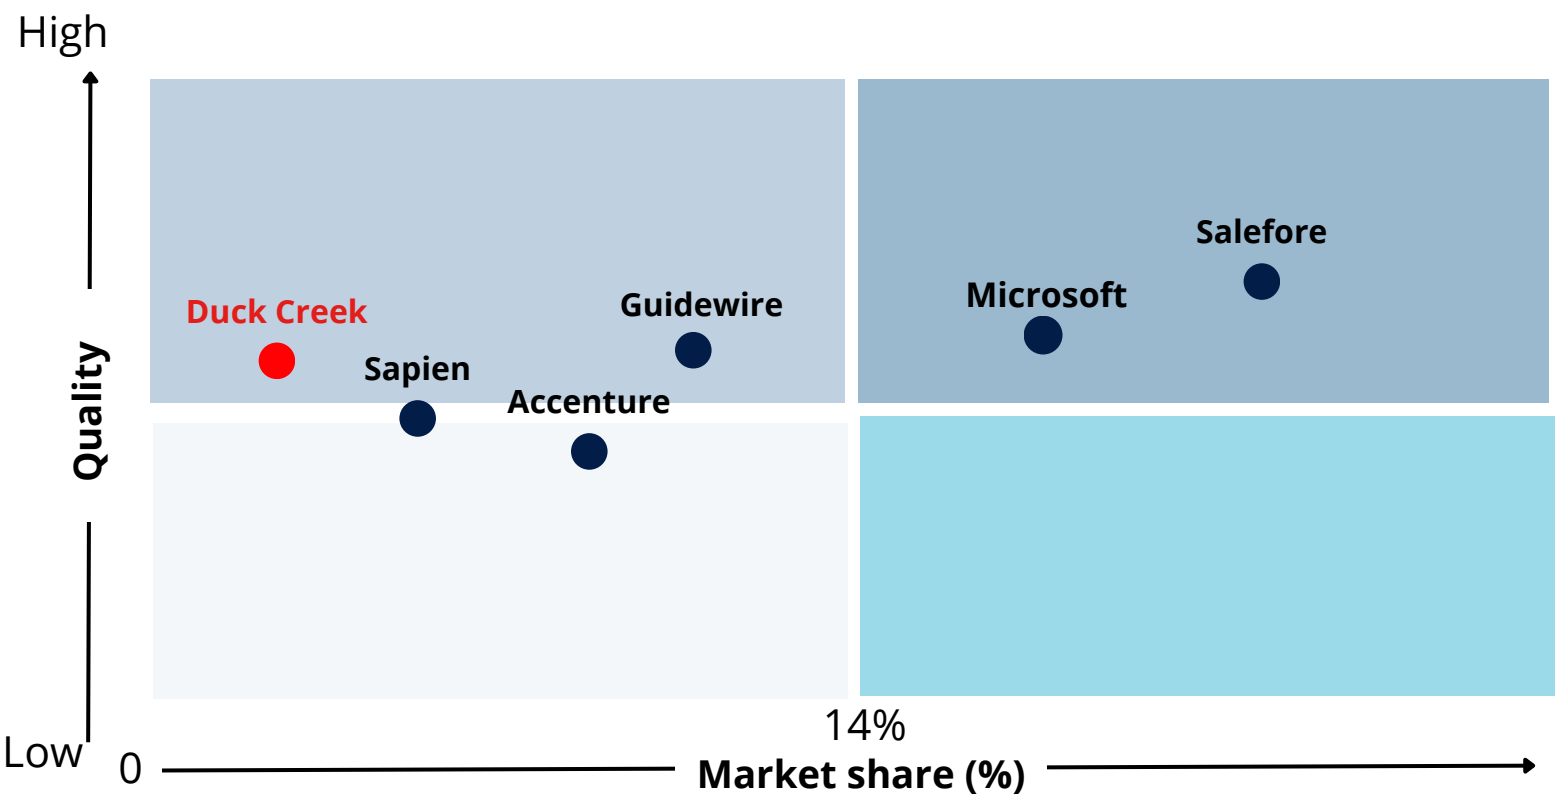

TAM X P&C insurance industry TH

SOM : THB 26.4 billion

SAM X market share's Duck Creek (10%)

Competitors' analysis

Duck Creek performs as low market share
(10%) and medium quality

Source : Apps Run The World

Risk and Mitigation

Risk

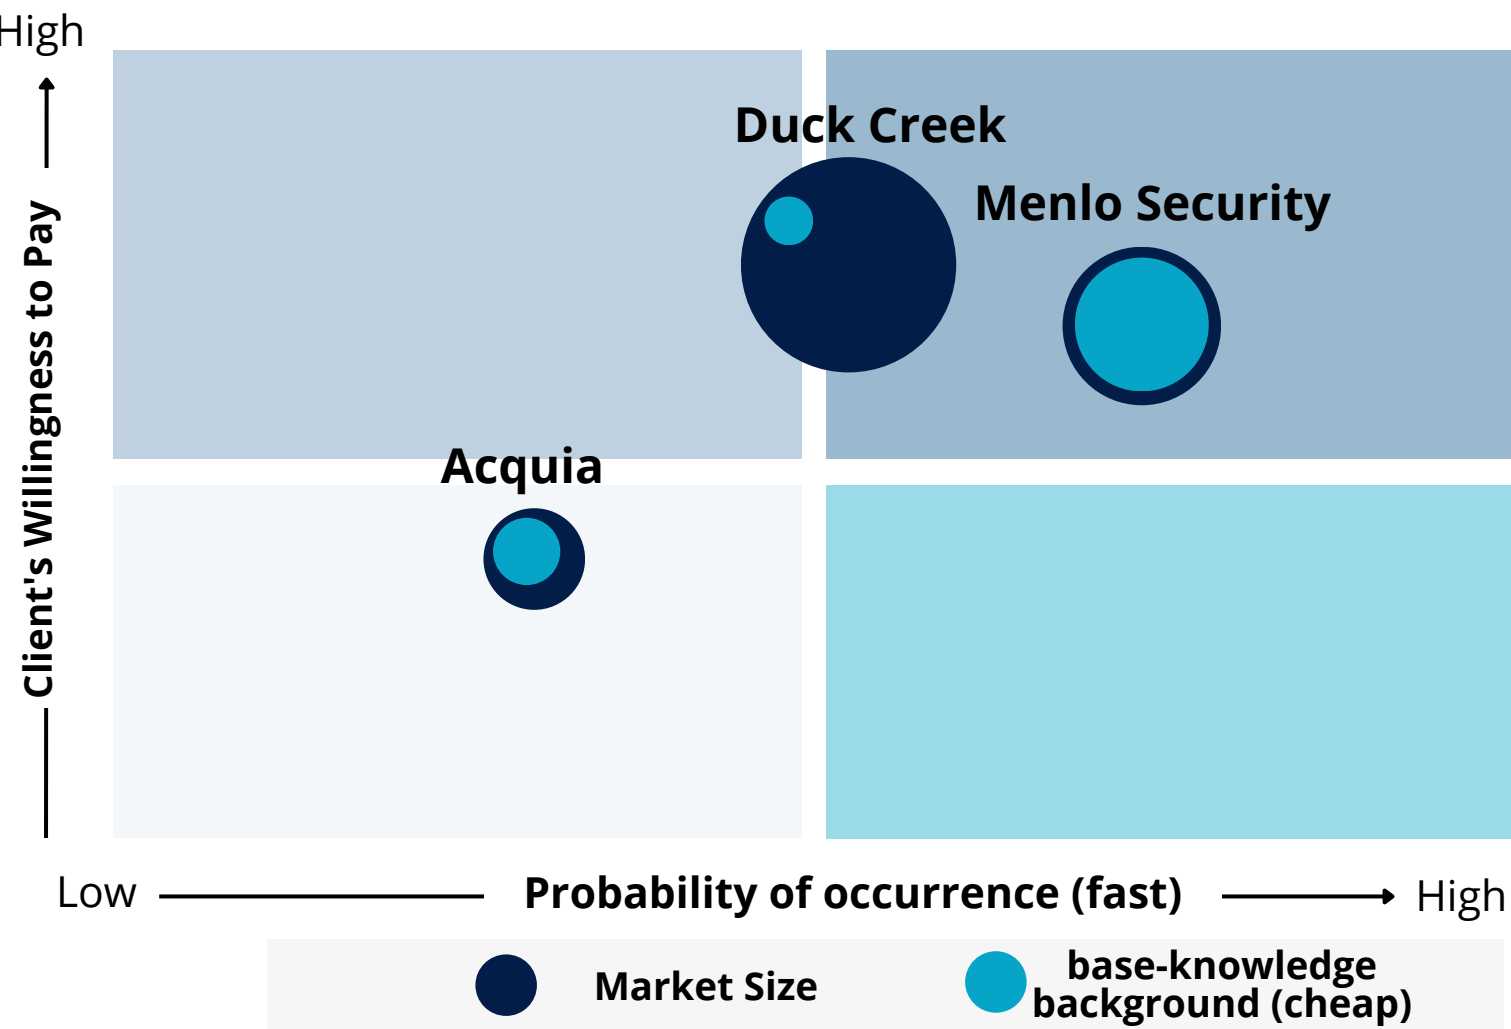

- Implementation Complexity
- Regulatory Compliance

Mitigation

- Conduct a thorough analysis of their existing systems, define clear implementation goals
- Ensure that the software platform supports compliance with relevant regulations.

Compared among of Top 3 companies

Duck Creek shows the highest market size. However, **Menlo security** is the the highest probability of occurring(fastest)

Menlo security is a better solution than the existing solution because it uses fewer resources for development solutions (cheaper solution). Besides, cyber security is a serious topic concern in Thailand (faster solution)

Key differences among the Top 3 companies

	Benefits	Cost	Key differences
Menlo	9% of Expected Revenue growth - Support the main product (cyber security) of MFEC - Retain clients and Enter new market (Hospitality)	Low-medium acquisition cost for entering the new market	- Low investment because MFEC is the same main product of MFEC - High probability of occurring due to serious issues and concern
Acquia	22% of Expected Revenue growth - Support the digital transformation - Enter a new market (EV-vehicles industry)	- medium-high acquisition cost for entering the new market - High competition due to booming in EV car trend	- Synergies and Integration in from CMS - more comprehensive and integrated digital experience management solution
Duck Creek	16% of Expected Revenue growth - Support the advance software operation - Industry specialized in P&C insurance software	- High acquisition cost for entering the new market - High competition due to rapid technology development in insurance industry	- Enhance Product Portfolio in the digital insurance industry. - High return from New S-curve for the insurance industry

Menlo Security is considered a low-risk low returns solution. However, Duck Creek is a better solution for high-risk, high-return situations due to the new entrance. Whlie, Acquia is medium risk and low-medium

THANK YOU

WE ARE OPEN TO THE QUESTION
