- Main stream = Subscription fees: 350, 570, 850 Baht
- One-time purchase

SDGs

5

GENDER
EQUALITY

We give the opportunities for stay-at-home mom to be a part of the business and to help empower them with the support of financial independence.

8

DECENT WORK AND
ECONOMIC GROWTH

We create jobs and supporting local economies by sourcing inventory from local thrift stores and partner with local organizations and charities to provide rental inventory practices.

9

INDUSTRY, INNOVATION
AND INFRASTRUCTURE

We provide an access for people who has limited access to traditional retail store by using digital infrastructure to provide convenience and facilitate sustainable operations.

12

RESPONSIBLE
CONSUMPTION
AND PRODUCTION

We reduce the amount of waste and pollution from clothing production and disposal and support sustainable consumption patterns.

13

CLIMATE
ACTION

We minimizes carbon footprint and raises awareness about the impacts of the fashion industry on the environment

Key Performance Indicators

Number of women employed
who are employed through
designer pool and operation

**Percentage of stay-at-home
moms who have been able to
increase their household income**

Revenue growth rate
indicates that business is
expanding and contributing to
economic growth.

Contribution to economy
amount of money that your business is
contributing to the local economy,
including taxes paid and money spent on
local goods and services

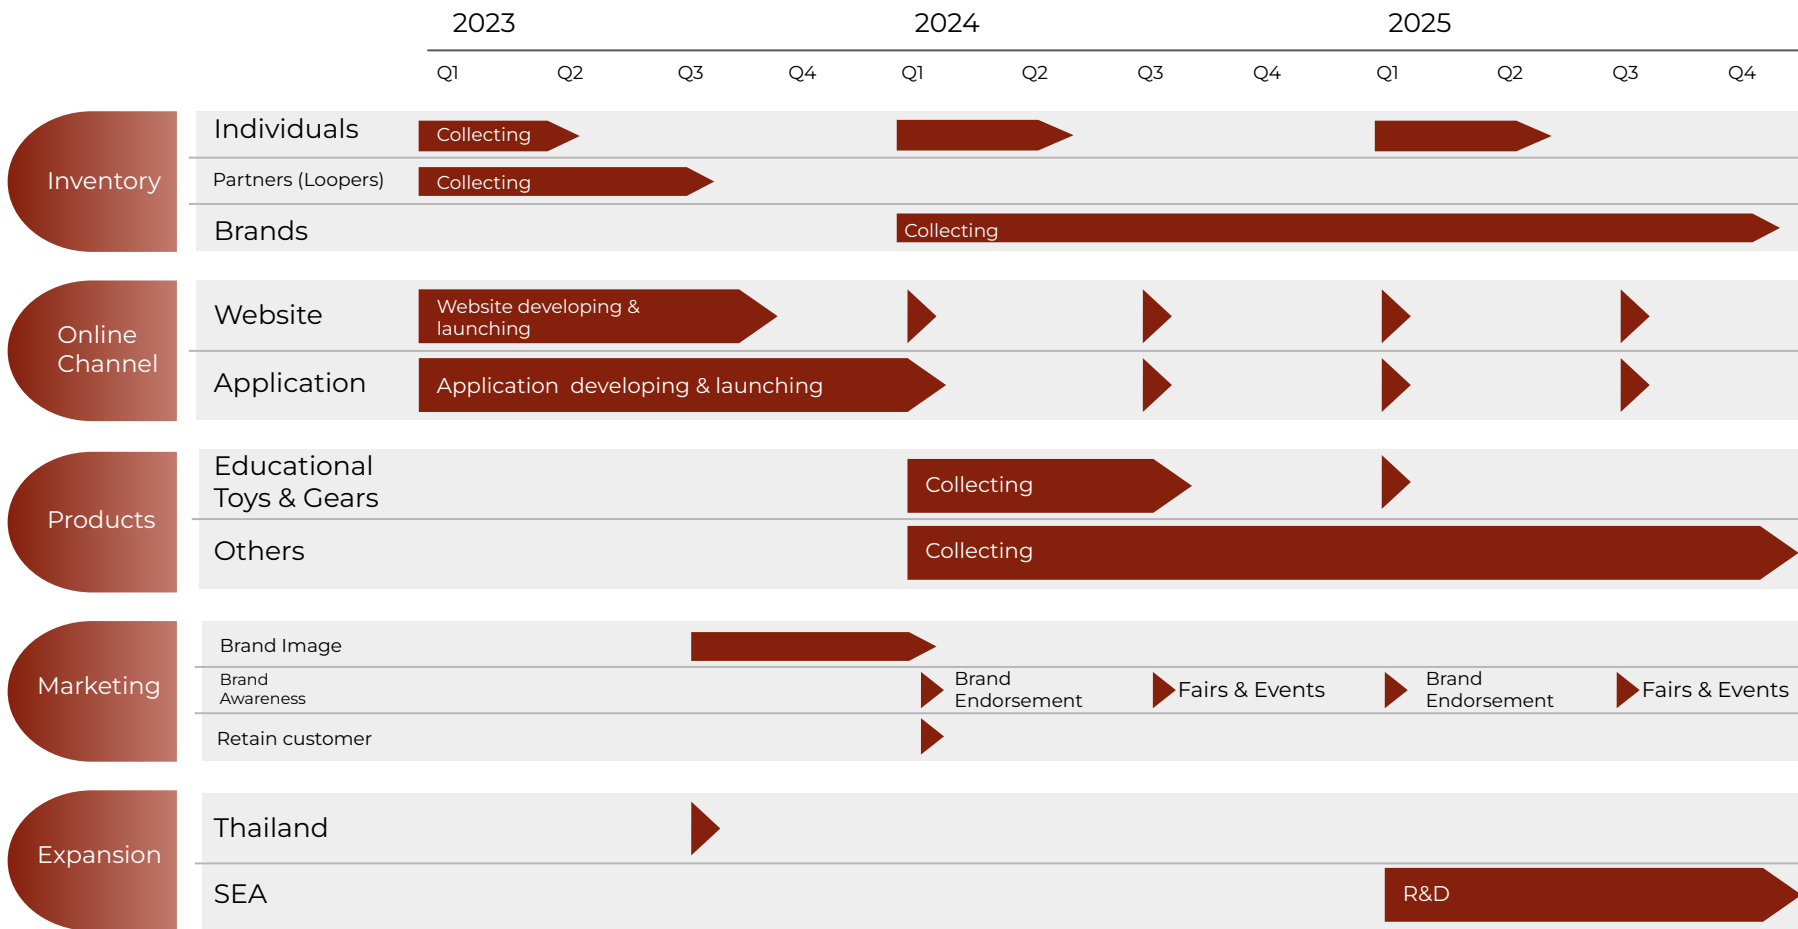

Number of current users

**The number of clothes saved
from landfills from operation**

**The amount of water saved
from reduced clothing
production**

**Reduction in greenhouse gas and carbon footprint emissions
from clothing production**

Implementation Plan

Business Model: Our journey

Uwear will kickstart the business by creating the lending platform and after that another business will be launched

2 BUSINESS UNITS

Rental service:

Renting is the main source of revenue at the beginning to gain customers and market share

#CLOSETHELOOP

One time purchase:

Later, the company will create and build new brand unique identity on existing brand resource (non-reusable clothes: low quality): Our **special designers pool** design new products

Undergraduate or new graduate who seeks job and **The stay-at-home mom** who is taken out of the labour market

Customer Journey

Mrs. Oil is the mother of 3 years old kid who is always looking for news clothes for her child because he is growing fast

Mrs. Oil is having a lot of no longer use clothes and finding the way to dispose

Mrs. Oil discovered Uwear and get rid of her sustainably

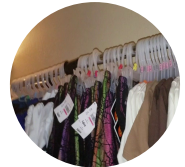

Uwear put the first priority at hygiene and cleanness, so all the clothes will go through the process of sanitisation

Mrs. Oil opened our application to rend new clothes for her child

Uwear offers the best marketplace for parents to rent and share

Mrs. Oil returned the clothes and rent the new one

Uwear recollecting the clothes

#CIRCULARFORZERO

Our platform

“Less word but more impactful”
By using **well known brand name**, it give users a **positive impression**

Search Bar on the front page to help users navigate the website

Users can create the **account** by **subscribing** through the platform to help building **brand loyalty**

Product recommendations

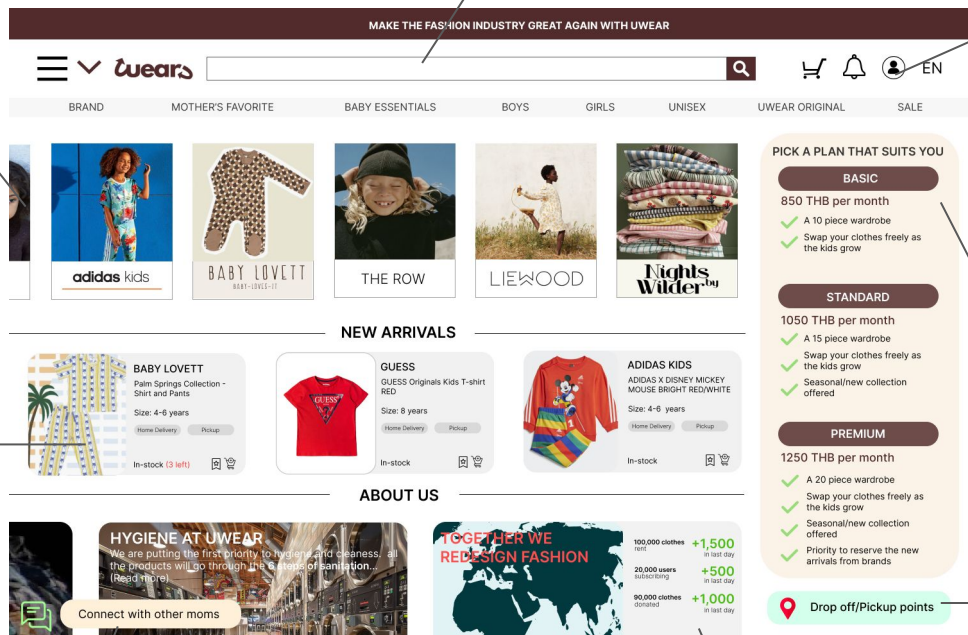

Providing **parents' community** and kid-related forum to enhance **customer engagement**

Having the **information section** about the company (e.g., the **sanitisation process** to increase and ensure the **trust** and create a **strong relationship** with users)

Providing the **statistic contribution/ action** of the brand to the world to convey the **sense of sustainability** and enhance **brand value**

Offering **different plans** to the **different needs of users**

Logistic is highly concerned in rental service model, the website offers the **drop point and pick up location** to tackle users' pain point

Kid-related forum (Talk, consult, discuss)

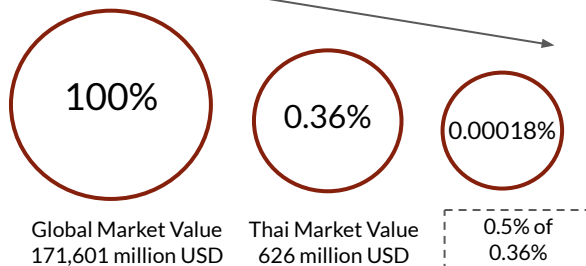

Market Overview

Thai Mother's Insight

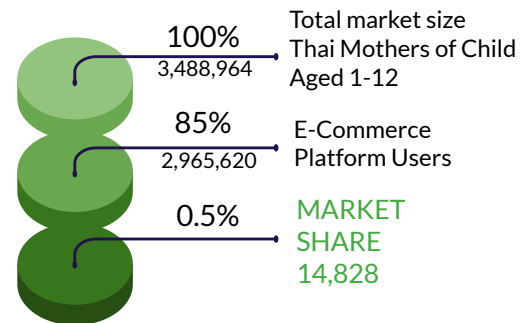

- **64%** mothers interested in using **second hand** clothes for their kids
- **5-15 pcs/months** for kids that have to **change**
- **Sizes & Occasions** are **main factors** for buying new clothes for their kids.
- **Hygiene & Quality** clothes are **important** to their kids

Market Value : Children Clothing Industry

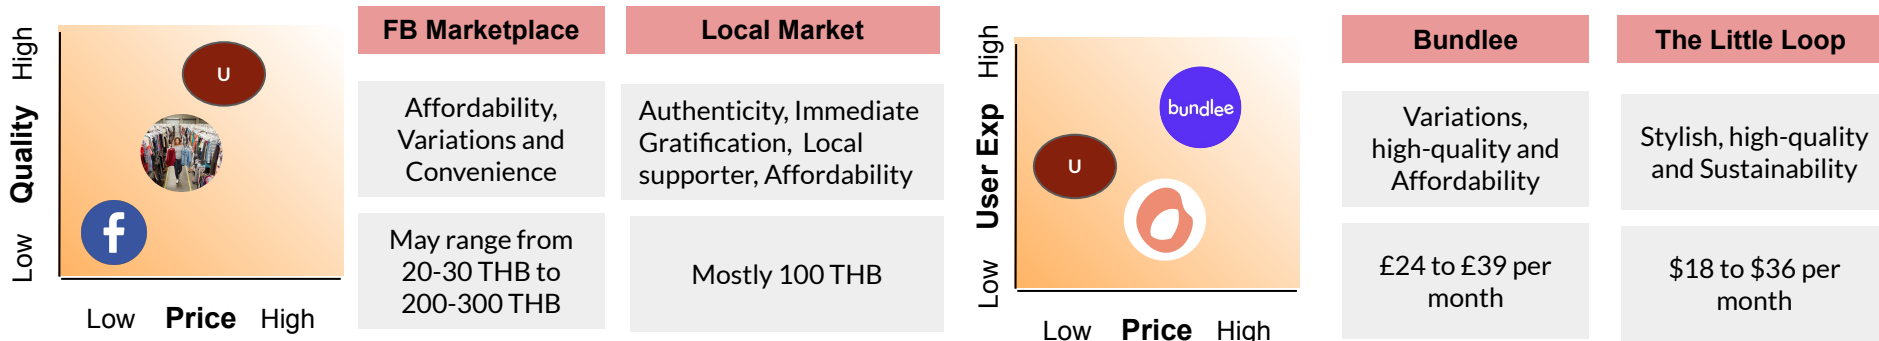

Target Market Value 3.13M USD = **112,500,00 Million THB**

First Year Market Share

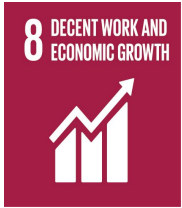

Market Competitor

Number of women employed: measures the number of women who are employed by the company, including those in part-time or remote work arrangements.

Percentage of stay-at-home moms who have been able to increase their household income through employment with the company: measures the percentage of stay-at-home moms who have been able to increase their household income as a result of employment with the company, which is directly linked to the company's mission of promoting women's economic empowerment.

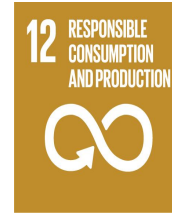

Revenue growth rate: This KPI measures the rate of change in your business's revenue over a specified period of time. A high revenue growth rate indicates that your business is expanding and contributing to economic growth.

Contribution to local economy:

This KPI measures the amount of money that your business is contributing to the local economy, including taxes paid and money spent on local goods and services. A higher contribution to the local economy can contribute to sustainable economic growth and development

We provide an access for people who has limited access to traditional retail store by using digital infrastructure to provide convenience and facilitate sustainable operations.

Environmental impact metrics:

This KPI measures the environmental impact of your business, including metrics such as the reduction in greenhouse gas emissions from clothing production, the number of clothes saved from landfills, and the amount of water saved from reduced clothing production.

Reduction in carbon emissions: This KPI measures the reduction in carbon emissions resulting from your business operations. By reducing your business's carbon footprint, you can promote sustainable practices and contribute to climate action.

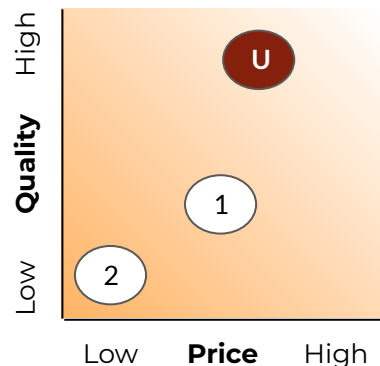

Prototype Testing Feedback

* Feedback collected via google survey according to how satisfied with 1 star being least satisfied to 5 star being the most satisfied

	Website (prototype)	Hygiene	Fitness	Price	Availability of choices	Logistics	comments
	3 stars	5 stars	2 stars	3 stars	3 stars	3 stars	Different pieces have different size guide, size guide should be more specific and clear
	5 stars	4 stars	4 stars	3 stars	3 stars	3 stars	Limited choices given the price, delivery is convenient, but the package was defected during the process
	4 stars	5 stars	4 stars	4 stars	2 stars	4 stars	Needs to expand variety of clothing for different occasions,
